The Institute of Development Management (IDM) was established in 1974 as a regional organisation in the countries namely Botswana, Lesotho and Eswatini (BLS) to help meet the management needs of the region through management development activities including training, consultancy, research, and the establishment of a Management Resource Centre. At the time, there was a serious shortage of managers in the young and developing economies of the three countries and IDM was mandated to train them to lead the management of their development. Now with over 40 years of doing this, IDM has grown from those early days, to what it is today, and continues to shape the futures

"What if we train them & they leave? What if we don't and they stay?"

"I am convinced that nothing we do is more important than hiring and developing people. At the end of the day you bet on people, not on strategies." - Lawrence Bossidv. GE

> "We recruit for attitude and train for skill."- Atul Gawande "Every day is a training day and every event is a training event." James Pritchert

With regard to excellence, itis not enough to know, but we must try to have and use it." Aristotle

"Excellence is an art won by training and habituation. We do not act rightly because

we have virtue or excellence, but we rather have those because we have acted

rightly. We are what we repeatedly do. Excellence, then, is not an act but a habit."

Aristotle

"People often say motivation doesn't last. Neither does bathing;

Zig Ziglar

that's why were commend it daily.'
