thari ya
sechaba!**

Happy International Women's Day

Today 8th March 2021 IDM joins the international community in celebrating the role and contribution of women in the society. Be reminded of your unique and special character, one that brings about positive change, peace and unity. We remain indebted to your diverse roles as mothers, caretakers, sisters, partners and wives, as well as leaders in your various spaces.

We value you, we salute you
